

Fig. A13: Anomaly detection results of toothbrush on MVTec-AD. From top to down: samples, ground-truth, and the anomaly score maps of ADTR. The first column is the normal sample.

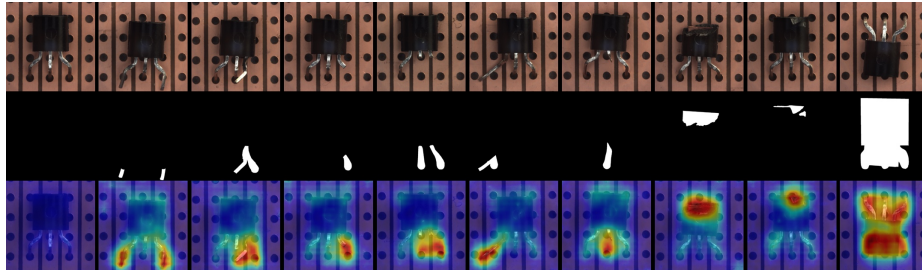

Fig. A14: Anomaly detection results of transistor on MVTec-AD. From top to down: samples, ground-truth, and the anomaly score maps of ADTR. The first column is the normal sample.

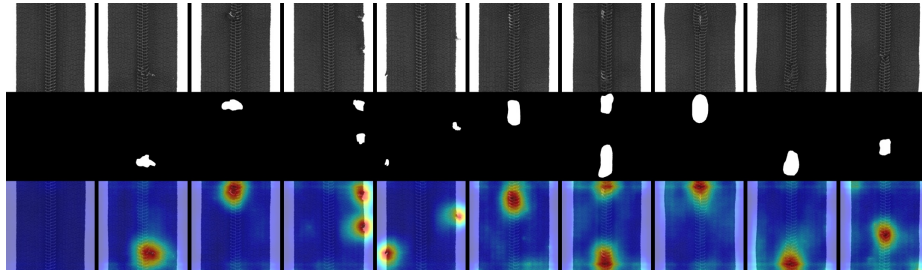

Fig. A15: Anomaly detection results of zipper on MVTec-AD. From top to down: samples, ground-truth, and the anomaly score maps of ADTR. The first column is the normal sample.
